**PURPOSE OF THE TEST:** In addition to the requirements of Level 3, to confirm that the horse has achieved a moderate level of engagement (accepts more weight on the hindquarters), moves with an uphill tendency and increased power especially in the medium gaits, and is reliably on the bridle without resistance. Expectation of straightness, bending, balance, suppleness, and self-carriage is higher than that required in Level 3. Canter-walk transitions and simple changes should not include trot steps. All trot work must be ridden sitting.
